PROFESSIONAL SUMMARY

Motivated and technically oriented IT professional with a B.E. in Electrical Engineering and a strong interest in Networking and IT Infrastructure. Eager to transition into an IT/Networking Engineer role and contribute to network operations, technical support, infrastructure management, and troubleshooting while continuously developing advanced networking skills.

WORK EXPERIENCE

[Estimation Engineer] | [Imperium Engineering Ltd.] [Jul 2025 – Feb 2026]

- Prepared Estimation proposals based on Panel specifications and clients requirements.
- Supported day to day work activities, documentation, and coordination with clients.
- Gave technical solutions as per clients requirements

[Testing Engineer] | [Fasttrack Inc.] [Mar 2025 – Jun 2026]

- Worked as part of a team and followed established workplace procedures such as Testing of panels , correction and review.
- Performed checks and review on panel and prepared reports based on standard procedures.
- Performed practicals and tests according to IS standards.

[Executive Security] | [InterGlobe Aviation Ltd.] [Mar 2023 – Mar 2025]

- Executed aviation security operations in compliance with BCAS protocols and airline standards.
- Supervised passenger and baggage screening while maintaining safe and orderly flight operations.
- Managed access control, documentation verification and multiple checkpoint procedures.
- Coordinated with airport authorities, CISF and internal airline teams to maintain secure environments.
- Responded to security incidents and emergencies while minimizing operational disruption.
- Maintained high passenger-service standards while following strict security procedures.

[PLC Operator Engineer] | [Indian Oil Corporation Ltd.] [Jan 2022 – Jun 2022]

- Worked as part of a team and followed established workplace procedures such as Testing of panels , correction and review.
- Performed checks and review on panel and prepared reports based on standard procedures.
- Performed practicals and tests according to IS standards.

[Apprentice Trainee] | [Baroda Dairy] [Mar 2021 – Jan 2022]

- Developed practical exposure to electrical fundamentals and machine services
- Supported departmental activities and followed established procedures.

SKILLS

Networking Fundamentals

- TCP/IP, OSI Model, IPv4/IPv6, IP addressing, subnetting, MAC addressing, ARP, ICMP

Network Services:

- DHCP, DNS, DORA process, basic network troubleshooting

Routing & Switching:

- Static routing, dynamic routing fundamentals, VLANs, router and switch basics

Troubleshooting:

- ping, ipconfig /all, tracert, nslookup, connectivity and IP configuration troubleshooting

Tools & Platforms:

- Cisco Packet Tracer, Wireshark, VirtualBox, Ventoy, Rufus

Other Technical Skills:

- MS Office Basics, AutoCAD, basic PLC systems knowledge

LAB & PRACTICALS

[Networking Fundamentals] — Cisco Packet Tracer

- Configured a small router/switch/client network, worked with DHCP address pools, verified automatic IP assignment and studied the DHCP Discover, Offer, Request and Acknowledgment process.

[Routing & Switching Lab] — Cisco Packet Tracer

- Practiced router and switch configuration, static and dynamic routing fundamentals, VLAN concepts and connectivity verification using troubleshooting commands.

[Wireshark Network Analysis] — Wireshark

- Practiced capturing and observing network traffic to understand protocols and packet-level communication.

EDUCATION

[IT Certification] [IT] [TOPS Technologies, Vadodara]	[Pursuing]
[B.E] [Electrical Engineering] [Babaria Institute Of Technology, Vadodara]	[2019] CGPA: [6.5]
[Diploma] [Electrical Engineering] [Butler Polytechnic, Vadodara]	[2016] CGPA: [7.91]
[Class X] [Silver Oak School, Vadodara]	[2013] Percentage: [69%]

ACHIEVEMENTS

- Automation Certification — Training in Electrical automation systems such as PLC, SCADA
 - Basic AVSEC — Aviation Security certificate.
 - Screener Certification — Aviation Security Baggage Screening
-
